

The background features a series of overlapping, curved, organic shapes in various shades of green, ranging from light lime green to dark forest green, and finally to black. The shapes are separated by thin white lines, creating a layered, architectural feel. The overall composition is dynamic and modern.

100 random slices

January the 29th, 2017 — Vasilis van Gemert

Every day my webserver generates a new book, filled with sliced blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
