

The background features a series of concentric, curved lines that create a sense of depth and movement. The lines are primarily in shades of green, ranging from a light, pale green to a vibrant, medium green. On the left side, a dark grey or black curved shape overlaps the green lines, adding contrast and a sense of shadow. The overall composition is clean and modern, with a focus on organic, flowing forms.

100 random slices

March the 1st, 2017 — Vasilis van Gemert

Every day my webserver generates a new book, filled with sliced blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
