

The background features a series of overlapping, wavy, curved lines in shades of purple and blue, creating a sense of depth and movement. The lines are thin and black, set against a gradient background that transitions from light blue at the top left to a darker purple at the bottom right.

100 random slices

June the 22nd, 2017 — Vasilis van Gemert

Every day my webserver generates a new book, filled with sliced blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
