

The background features a series of wavy, concentric lines that create a sense of depth and movement. The colors transition from a light beige or tan at the top left to a deep, dark green at the bottom right. The lines are thin and black, defining the boundaries of the color bands.

100 random slices

August the 21st, 2018 — Vasilis van Gemert

Every day my webserver generates a new book, filled with sliced blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
